

世界智能大会 2017

迈向大智能时代

WORLD INTELLIGENCE CONGRESS (WIC 2017)
Towards Hyper-Intelligence Age

27 – 30 June 2017, Tianjin

Background

WIC 2017 is aiming to become the first and highest standard of *international AI convention* in China, it should serve as a cooperation and exchange platform for global experts and officials, industry giants and entrepreneurs. Over 200 stakeholders will contribute their perspectives and more than 3,000 professionals will be attracted for further discussion and exchange. Central and local government bodies, major institutes and internet giants (Baidu, Alibaba, Tencent, etc.) as well as outstanding entrepreneurs and startups will present Chinese views and best practices.

Hosting & supportive organizations

Ministry of Industry and Information Technology (MIIT) (& other not specified ministries)
Beijing Municipal Government (Jing)
Tianjin Municipal Government (Jin)
Hebei Municipal Government (Ji)
Chinese Academy of Engineering (CAE)
World Federation of Engineering Organizations of UNESCO (WFEO)

Objectives

- Establish a world-class exchange platform for intelligent & advanced technology
- Cultivate “Jing-Jin-Ji” integrated science and technology demonstration zone (e.g. with a National Intelligent Engineering Technology Laboratory; build a cluster on intelligent high-tech industry (smart manufacturing); gather leading entrepreneurs in the field of intelligent high-tech; initiate intelligent high-tech industry foundation)

Scale

3000 participants; including CEOs and high-level managers of leading companies, University Presidents, research institutions, venture capital investors, entrepreneurs and media

Outcome: establish 3 research institutions

- Institute of Artificial Intelligence Research & Development (macro-strategy research; collaboration between Chinese Academy of Engineering and Tianjin Municipal Government)
- Center of Jing-Jin-Ji coordinated development (medium level research, a collaboration between MIIT and Tianjin Municipal Government)
- Institute of Intelligent System Engineering (applied research)

Content of the Congress

Four sub-forums

- **Jing-Jin-Ji Forum** (intelligent industry and applications)
Focusing on how smart technology could help to facilitate information sharing, efficiency elevation and business innovation in the fields of smart manufacturing, health, transport, shipping, agriculture, finance and city management.
- **Thousand People Forum** (cutting-edge technology)
Inviting leading experts, scholars from China and abroad to share thoughts on topics of cloud computing, big data, internet of things (IoT), artificial intelligence (AI) in particular (application and practice, eco-system of the industry).
- **Smart Hub Forum**
Focusing on how to develop a smart logistic system for the Jing-Jin-Ji and Bohai Economic Rim based on the existing advantage of Tianjin's transportation facilities, e.g. business, shipping and airport hub and with high-speed train connection.
- **Intelligence industry Financing**
The forum invites venture capital companies from home and abroad, major smart technology companies, startup companies to discuss about how to leverage capitals to push forward innovation industry.

Overview of the four forums

Jing-Jin-Ji	Thousand People	Smart Hub	Intelligence Industry Financing
Smart manufacturing	Core tech of AI	Smart driving, 20-country forum	Financing intelligence industry
Smart health and medical care	Cloud computing and intelligence industry	Drones and smart agriculture	Smart hardware innovation Entrepreneurship
City Forum	Big data & intelligence industry	Forum of smart network of big transport Bohai Economic Rim	Sino-Swedish Intelligence industry cooperation forum
Fintech	Internet of Things & intelligence industry		
	University President Forum		

World Intelligence Expo

The congress also features an Expo that is open to companies in the fields of intelligent technology application, smart driving and smart home including wearable technology to exhibit their technologies and products.

Smart Driving Contest

The contest to be held during the congress will invite leading experts as jury members, featuring autonomous driving, drones and autonomous driving robots. The contest will invite participants from companies, universities, research institution from all over the world.

Business roundtables

Besides the WIC forums, the organizers will organize different business roundtables for various countries. Currently there will be a Sino-German business roundtable, an Sino-Israel High-Tech Innovation Forum, a Sino-Swedish Intelligence Industry cooperation Forum and a Sino-Swiss business forum (27 June 2017 / 9am-12pm) with the aim to bring a Swiss business delegation or related topics for a match-making roundtable discussion. There will be also Swiss high-tech startup delegation (confirmed) who will participate at the conference.

List of Guests (draft)

- State leadership
- XUE Kuangdi, Honorary President, China Academy of Engineering
- LI Zhonghong, Party Secretary, Tianjin Municipal Committee
- WANG Dongfeng, Vice Party Secretary, Tianjin Municipal Committee, Mayor of Tianjin
- HUAI Jinpeng, Vice Party Secretary, Tianjin Municipal Committee
- WU Jichuan, Former Minister of MIIT, President of China Cloud Computing Technology and Industry Alliance
- CEOs of leading companies from China and abroad (e.g. Facebook, Google, Uber, Airbnb, Baidu, Xiaomi, Tencent, Alibaba, Didi, JD, Palantir, China Mobile, China Unicom, IBM, Intel, Lenovo, Huawei, Microsoft etc.)
- Marlene Kanga, World Federation of Engineering Organizations of UNESCO (WFEO)

Agenda (draft)

28 June 2017

Morning session, 9:00-12:30: Congress on topic of Vision,		
Host	Major leadership of Tianjin	
9:00-10:00	Opening ceremony	State leaders, WIC2017 Congress Chairman, leadership of Chinese Ministries, leadership of Tianjin
	Welcome speech	LI Hongzhong, Party Secretary of Tianjin
	Speech	Marlene Kanga, World Federation of Engineering Organizations of UNESCO
	Speech	State leadership
10:00-10:30	Intelligent Society & SDG	Officials from UN
10:30-11:00	AI 2.0	PAN Yunhe, Vice President of China Academy of Engineering
11:00-11:30	Social network & Intelligent Era	Mark Zuckerberg, Founder & CEO, Facebook
11:30-12:00	Intelligence: Gene of futhure internet	Robin LI, Founder & CEO, Baidu
12:00-12:30	Intelligence Is Not Artificial	Piero Scaruffi, the author of <i>Intelligence Is Not Artificial</i> , and <i>A History of Silicon Valley</i>
12:30-13:30	Lunch	
Afternoon Session, 13:30-17:30		
Parallel Forums: Technology/ Practice	Forum 1: Jing-Jin-Ji: Smart Manufacturing Forum	
	Forum 2: Thousand People Forum: Core tech of AI Forum	
	Forum 3: Smart Hub Forum: Smart driving, 20-country forum	
	Forum 4: Intelligence Industry Financing	
	Forum 5: Jing-Jin-Ji: Smart health and medical care forum	
	Forum 6: Thousand People Forum. Cloud computing and intelligence industry	
	Forum 7: Jing-Jin-Ji. City Forum	

29th June 2017

Morning Session, 9:00-12:30: Congress on topic of Frontier		
9:00-9:30	Intelligent Technology & Algorithm Revolution	Jensen Huan, Founder & CEO, NVIDIA
9:30-10:00	Methodologie of Intelligent research	Stuart J. Russell, Founder & Professor of Center of AI system, University of California, Berkeley
10:00-10:30	AI and smart life	Harry Shu, Executive Vice President of Artificial Intelligence & Research at Microsoft
10:30-11:00	AI development based on big data	ZHANG Bo, Academician of China Academy of Sciences
11:00-11:30	Recognition Computing and business intelligence	Grady Booch, Chief Scientist, IBM Watson
11:30-12:00	Voice recognition and perception intelligence	Liu Qingfeng, Founder & CEO, IFLYTEK CO.,LTD
12:00-12:30	Frontier trend of global intelligence	LI Feifei, Diretor, AI Laboratory of Stanford University
12:30-13:30	Lunch	
Afternoon Session, 13:30-17:30		
Parallel Forums: Technology and Practice	Forum 8: Intelligence Industry Financing: Smart hardware innovation Entrepreneurship	
	Forum 9: Jing-Jin-Ji: University President Forum	
	Forum 10: Thousand People Forum: Big data & intelligence industry	
	Forum 11: Smart Hub Forum: Smart network of big transport Circum-Bohai Sea Region Hub Forum	
	Forum 12: Jing-Jin-Ji: Drones and smart agriculture	
	Forum13: Thousand People Forum: Internet of Things & intelligence industry	
	Forum 14: Jing-Jin-Ji: Fintech	
	Forum 15: Intelligence Industry Financing: Sino-Swedish Intelligence industry cooperation forum	

30 June, 2017

Signing & Closing ceremony
